

N Dibyandu Singha Rowdra

JUNIOR FRONT END DEVELOPER

Sylhet, Bangladesh | +8801724022762 | dibyandusingharowdra@gmail.com | [GitHub](#) | [Linkedin](#) | [HackerRank](#)

Summary

I'm a dedicated junior-level front-end developer. I have a good understanding of javascript and react js. My experience includes making responsive website designs, developing user interfaces, and debugging. Building reusable code for future use. I am comfortable - converting UI/UX design into web pages.

Skills

Front End: Html5, Css3, Bootstrap, Tailwind, DaisyUi, Javascript, React js, React Router, Hook, JSX

Back End: Javascript, ES6, Node Js, Express Js, Firebase | **Database:** MongoDB, Mysql

Tools: Github, Vs code, Chrome Dev Tools, Figma, Netlify, Firebase hosting | **Extra:** Python, Flask, Java, C

Projects

1. CSE Raven - A learning platform | [Live Site Link](#) | [Client Site Code](#) | [Server Site Link](#)

- It is a user-friendly website. Unregistered users can easily register, and Google/GitHub login is available.
- Six courses are available (ex- Machine learning, Data structure, Artificial Intelligence) with their prices.
- Users can easily check the description of each course and can also download a pdf file from our site.

Technology used: React, React router, Tailwind, MambaUI, Kitwind, React-to-pdf, Firebase Authentication

2. PhotoMania - A review website | [Live Site Link](#) | [Client Site Code](#) | [Server Site Link](#)

- Several photography services are available. Users can easily check their prices and description
- Any registered user can give reviews to available services and any user can see the reviews.
- Registered users can check their own reviews and can also add a new service if they want

Technology used: React js, React router, tailwind, vercel, jwt, Firebase Authentication, Node, Express

3. MoboSell - A Mobile resale platform | [Live Site Link](#) | [Client Site Code](#) | [Server SiteLink](#)

- Unregistered users can see products by category. 3 types of users are available(admin, buyer, seller).
- Buyers can check the available product descriptions and can contact the seller and can pay via cards.
- Sellers can add products with their descriptions and can edit/delete or advertise their products.
- Admin can see all the available users and can delete any accounts or products if they are reported.

Technology used: ReactJs, React router, Tailwind, DaisyUI, Firebase, NodeJs, ExpressJs MongoDB, Stripe,
